Resolution	3 Mega-Pixel / Full HD 1080p	

\* Manual iris and P-iris versions are also available for 2.8-8mm lens.

**> Full coverage in just 2 lenses !!**

Concept

**> Simple Choice**

- The most frequent used focal range from wide 2.8mm to tele-photo 50mm can be covered by only two lenses and realizes horizontal field of view 126.1° to 6.8° on a 1/2.7" camera.

**> 3 Mega Pixel / Full HD 1080p for both Day and Night**

- Realized 3 Mega-Pixel for both visible and infrared lighting condition.

**> Compatible with large imager sensors**

- Designed for 1/2.7" sensors. Therefore useful for 1/2.7", 1/2.8", and 1/3" cameras.

**> Slim Inventory**

- By this simple line-up, you do not need to keep inventory with various models and the number of product items could be reduced.

**The simple choice for better security imaging. — Tamron's Double Vari-Focal Solution**

**Caution** : Please read the instruction manual carefully before using the camera.
