IER-28R040005A IER-28R080005A IER-28R160005A

WARNING

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EX-POSE THIS PRODUCT TO RAIN OR MOISTURE. DO NOT INSERT ANY METALLIC OBJECT THROUGH THE VENTILATION GRILLS OR OTHER OPENNINGS ON THE EQUIPMENT.

CAUTION

EXPLANATION OF GRAPHICAL SYMBOLS

The lightning flash with arrowhead symbol, within an equilateral triangle, is in- tended to alert the user to the presence of dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC INFORMATION: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference at his own expense.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This Class A digital apparatus complies with Canadian ICES-003. Cet appareil numèrique de la classe A est conforme á la norme NMB-003 du Canada.

CE COMPLIANCE STATEMENT

WARNING

This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

IMPORTANT SAFETY INSTRUCTIONS

- 1. Read these instructions.
- 2. Keep these instructions.
- 3. Heed all warnings.
- 4. Follow all instructions.
- 5. Do not use this apparatus near water.
- 6. Clean only with dry cloth.
- 7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11. Only use attachments/accessories specified by the manufacturer.
- 12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13. Unplug this apparatus during lightning storms or when unused for long periods of time.

- 14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15. CAUTION THESE SERVICING INSTRUCTIONS ARE FOR USE BY QUALIFIED SERVICE PERSONNEL ONLY. TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT PERFORM ANY SERVICING OTHER THAN THAT CONTAINED IN THE OPERATING INSTRUCTIONS UNLESS YOU ARE QUALIFIED TO DO SO.
- 16. Use satisfy clause 2.5 of IEC60950-1/UL60950-1 or Certified/Listed Class 2 power source only.
- 17. ITE is to be connected only to PoE networks without routing to the outside plant.

1. Overview

This chapter describes NVR overview, components and their terms and features.

This manual introduces a network video recorder (NVR) which monitors or record, controls images via a network camera.

Multiple users may monitor video at the same time, and many cameras can be controlled simultaneously by a manager. Also, through a PC or a smartphone, video might be monitored by transmitting video and audio using a network.

The device features include the following:

- Convenient UI from user's viewpoint
- IP camera input 4/8/16 channels
- Providing H.264 and H.265 compression
- Up to 4K real time recording
- HDD information and status presentation
- HDD overwriting
- High capacity back-up with USB 3.0
- Simultaneous recoding and playing of 4/8/16 channels
- Various search mode (time, event, thumbnail, smart search, text and VCA)
- Various recording mode (manual, event, timed recording, panic recording)
- Remote monitoring through a network viewer, a web viewer, and a mobile viewer

1.1 Package Contents

The device package contents consist of the following:

```
Note Please check all components involved.
```

Table 1-1 Package contents

No.	Name	No.	Name
1	NVR	5	Program CD
2	DC Adapter & Power cord	6	SATA cable
3	Mouse	7	SATA power cable
4	Quick guide	8	HDD fixing screw

1.2 NVR Description

Each part is listed in the below:

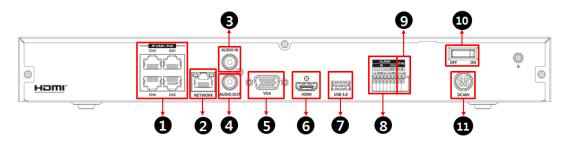

ଡ଼ିପତ		4

Figure 1-1 Name and Connection of each front section

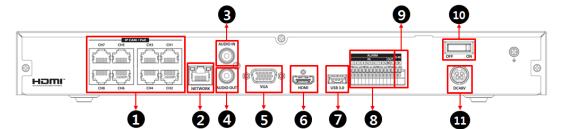

Table 1-2 Name and Function of each front section

No.	Name	Function
1	Power status LED	Pointing out device on/off.
2	Recording status LED	Pointing out recording in process.
3	Network LED	With a network viewer, pointing out network in connection.
4	USB port	USB port is connected for USB mouse or firmware upgrade, and data back-up.

<u>4CH NVR</u>

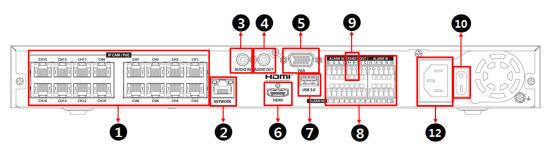

Figure 1-2 Name and Connection of rear section of 4ch, 8ch and 16ch NVR

No.	Name	Function
1	IP CAM / PoE	IP camera input port, IEEE802.3at PoE support.
2	Network	Network connector.
3	Audio In	Audio input port.
4	Audio Out	Audio output port.
5	VGA	VGA output port.
6	HDMI	HDMI output port.
7	USB 3.0	USB 3.0 port is connected for data back-up.
8	Alarm In/Out	Alarm connector.
9	RS485	RS-485 communication connector.
10	Power Switch	Power On-Off.
11	DC48V	DC Adapter input port.
12	AC POWER INPUT	AC Power cord input port.

2. Installation

This chapter describes the way to install NVR.

When installing a device, connect rear of the device with each port on the basis of below connection map.

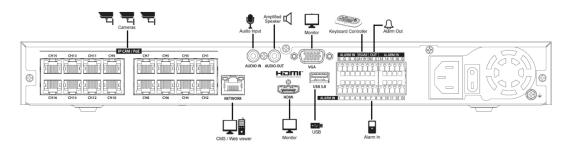

Figure 2-1 Connection map

The device starts first like below sequences:

- 1 Installing HDD
- 2 Connecting with an exterior device
- 3 Starting a system
- 4 Setting a quick setup

2.1 Installing HDD

How to install HDD in the device:

- Withdraw the mains plug before installing HDD to reduce the risk of injury or electrical shock, or device malfunction.
- Make sure to check the compatibility of HDD with the device.
- 1 Always switch off and unplug the unit.
- 2 Unscrew with a screw driver (+) and open the unit cover.
- 3 Install HDD in the bottom case.
- 4 Connect a data cable and power cable with HDD.
- 5 Close the cover and tighten screws.

2.2 Connecting with Exterior Device

How to connect each port to rear section of the unit:

- 1 Place the unit in a stable flat surface.
- 2 Make a room between front/rear sides of the device not to break connectors.

Image: MarningDo NOT install the device too close to the wall. Protrusive connects rear the unit
may be forcedly curved or pressed, which cause fires, electric shocks, or injury.

- 3 Check to switch off and unplug the unit.
- <u>/!\</u> Warning

Make sure to withdraw the mains plug before installing the device.

4 Connect input ports of IP camera .

Note Connecting a camera port with the unit automatically detects the camera.

5 Connect audio input and output port with a mic and speaker.

Note

Assure regulations in the area whether recording to be legal or not.

6 Connect a monitor with VGA or HDDMI port.

7 Connect a network port.

N	IETWORK

8 Connect an alarm and RS485 device.

ALARM IN G G G G	RS485	OUT NO C	ALARM IN 13 14 15 16 G
נטטטט	じじ	ර්ථ	
53333	हरहर	हरहर	हरे के के के ब
1 2 3 4	56	78	9 10 11 12 G
	ALA	ARM IN	

9 Connect USB port for data back-up.

10 Supply the main power after completion.

Power Switch

2.3 Starting System

Power supply begins with system operation as follows:

11 Switching on initialize with below icons in order.

Note Installing new HDD might take more initialize time.

12 With buzzer sounds, the start screen is presented.

13 In Log in screen, enter the ID, Password and press OK.

	Log In		×
	Name	admin	•
	Password		
	•		
		OK	Cancel
Note	Default ID & Password i	is admin/admin	
<u>_!</u> Attention	Please change password	d after login due to sec	curity.
Click 🕨 to	see the MAC address.		
Note	If lost password, inform password.	the MAC address to su	upplier to create tempo

2.4 Quick Setup

First start of the system operates Easy Installation as follows:

- 1 Account
- 2 System
- 3 Network
- 4 Time/Date
- 5 Easy Installation Wizard

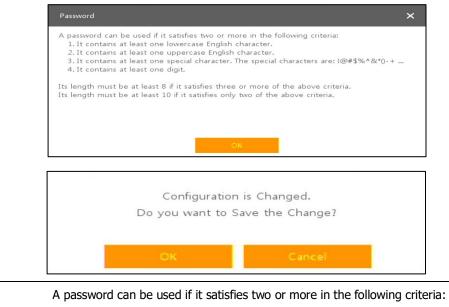

2.4.1 Account

How to set Account of Easy Installation:

1 Click the keyboard icon to set ID and Password users want.

Name	admin		
ID	admin		
Password	****		
Confirm Password	****		

2 Creation if an error occurs, an error window is provided, and then a confirmation window is provided.

- 1. It contains at least one lowercase English character.
- 2. It contains at least one uppercase English character.
- Note
 3. It contains at least one special character. The special characters are: !@#\$%^&*()-+ ...

 4. It contains at least one digit.

 Its length must be at least 10 if it satisfies only two of the above criteria.

 Its length must be at least 8 if it satisfies three or more of the above criteria.
- 3 With keyboard UI, set the ID and Password, and press OK.

ID. admin Image: Char. Input: Password admin Max. Char. Input: Confirm P ^ 1 2 3 4 5 6 7 8 9 0 - = Image: Char. Input: Confirm P ^ 1 2 3 4 5 6 7 8 9 0 - = Image: Char. Input: Caps a s d f g h j k 1 j 1 Del Shift z x c v b n m , / Clear A OK Cancel	Password admin Max. Char, Input : Confirm P	Name		a	Idmir	n											
Confirm P [•] 1 2 3 4 5 6 7 8 9 0 - = [•] 1 2 3 4 5 6 7 8 9 0 - = [•] 1 2 3 4 5 6 7 8 9 0 - = [•] 1 2 7 1 2 3 4 5 6 7 8 9 0 - = [•] 1 Caps a s d f g h j k l j k l j k l j k l j k l j k l j k l j k l j k l k l	Confirm P ¹ 1 3 4 5 6 7 8 9 0 = Sample A Sample A	D		a	ıdmir	7

OK Cancel	OK Cancel		Shift	z	×	c				m	,				/	CI	lear
						0	ĸ	Û		Car	ncel						

- Default ID/Password is admin/admin.
- Note
- Change the password for security.
- Max character length is 16.

4 Press the ${\bf Save}$ button to save newly set ${\bf ID}$ and ${\bf Password}.$

5 Press **Next** button to end Account setting and move the next setting phase.

2.4.2 System

How to set the system of Easy Installation:

1 Set each item in **System** setting screen.

Language	English	-	
Device Name			
Keyboard ID	1	¢	
HDMI / VGA	1920 × 1080	•	

- Language: Select system language.
- Device Name: Enter the device name.
- Keyboard ID: To identify device usages in controlling NVR with RS485 through a keyboard
- Selecting the device ID. In case of simultaneous use of equipment, set ID with difference.

Note	 As for using many NVRs, set ID with difference.
• HDI	4I/VGA: Set resolution of a monitor connected to the device.
	 Video is not displayed through VGA port if set 3840x2160 resolution.
Note	 If resolution is set to 3840x2160 and a monitor that does not support this resolution is connected to the HDMI port, it will automatically change to 1024x768 resolution.

2 Press **Save** button to save set value.

3 Press **Next** to end System setting and move the next setting phase.

2.4.3 Network

How to set the network of Easy Installation:

1 Set each item in **Network** setting screen.

WAN Port	Static IP	DHCP (Dynamic)	
IP Address	192.168.1.10	= 🛟	
Subnet Mask	255.255.255.0	■ ‡	
Gateway	192.168.1.1	🔳 🌲	
DNS	8.8.8.8	🔳 🛟	
Port (TCP)	9350	=	
Port (HTTP / HTTPS)	80 🔳 🗘	443 🔳 🛟	
PoE Ports Server	192.168.30.1	■ ↓	

- WAN Port: Select whether to use static IP or dynamic IP.
- IP Address, Subnet Mask, Gateway, DNS, and Port: As for dynamic IP, enter information in each space.
- 2 Press Save button to save set value.
- 3 Press Next to end Network setting and move the next setting phase.

2.4.4 Time/Date

How to set the time/date of Easy Installation:

1 Set each item in Time/Date setting screen.

Easy Installation - Time / I	Date	×
Network Time Sync	Use	
System Time	2019/08/14 16:31:12 DST	÷
Time Zone	00:00 Casablanca, Coordinated Universal Ti	me, Dublin, Edinbur 🔻
DST Start	1 1st SUN (0H:0M)	
DST End	12 1st SUN (0H:0M)	
Prev	Next Save	Cancel

- Network Time Sync: Select network for synchronizing with time server.
- System Time: Not for synchronizing with network time server, set the device time; otherwise (applying for Daylight saving time), select DST.
- Time Zone: Select time zone for the system being installed.
- DST Start/End: For applying Daylight saving time, set the application period.

- 2 Press **Save** button to save set value.
- 3 Press **Next** to end Time/Date setting and move the next setting phase.

2.4.5 Easy Installation Wizard

Easy Installation			×
Easy Installation Wizard	Run Every Time when th	ie System Starts	
Denv		Contract	Cancel
Prev		Save	Cancel

- **1** Select to run Easy Installation every time when the system start.
- 2 Press **Save** button to save set value and end Easy Installation.

3. Live Screen Configuration

8	Set Bookmark	Save the bookmark.

6. Webviewer

This chapter describes webviewer for monitoring videos through a PC in remote mode.

Item	Recommended	Minimum
OS	Microsoft® Windows® 10 x86(64bit) (Home Premium, Professional, Ultimate) Microsoft® Windows® 8(pro, Enterprise)	Microsoft $\ensuremath{\mathbb{R}}$ Windows $\ensuremath{\mathbb{R}}$ XP Home SP3
CPU	Intel CoreTM i5-2550 3.30GHz or higher	Intel CoreTM 2 Duo E7200 2.53GHz or higher
RAM	2GB or higher	1.5GB or higher
VGA	ATI RadeonTM HD 3650 or NVIDIA GeForce 8400GS or higher(1280x1024, 32bpp or Higher), Multi Monitor	ATI RadeonTM HD 2400 or NVIDIA GeForce FX5500 or higher(1024x768, 24bpp or higher)
HDD	Over 6GB	Over 1GB
LAN	Gigabit Ethernet	10/100 Mbps Ethernet

Table 6-1 System	Requirement for Webviewer
------------------	----------------------------------

How to monitor with webviewer

1 Enter IP address of a recorder in Internet browser.

- 2 Enter ID and Password, and then click the button.
 - Viewer: playing NVR Live images
 - Setup: setting menu in similar ways with NVR connected monitor.

For using Viewer, users need to download Java. The way to download is shown as follows:

In case of selecting Viewer(Internet Explorer)

1 Click Viewer.

2 When Java download screen opens, download and install JAVA.

3 Live images may be monitored.

7. Appendix

7.1 Installing System Keyboard

To setup the keyboard controllers, the user needs to setup the network, passwords and perform special tasks such as Uploading and Downloading programmed data from the dome cameras. To enter the Keyboard menu, press and hold CTRL and press MENU expressed as CTRL + MENU in the manual. You will see the following menu.

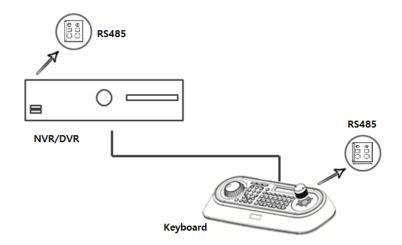

Keyboard Setup- for USB

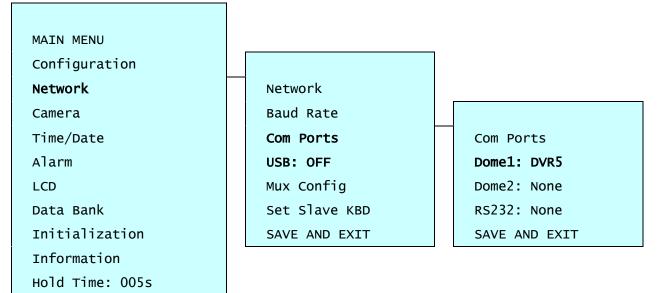

Configuration	
Client Keyboard : Only USB Port(The other ports and slave ke supported)	yboards are not
General Keyboard : Dome1/Dome2/RS232(The USB port is no	ot supported)
General Keyboard : Dome1/Dome2/RS232(The USB port is no	t supported
IS	Client Keyboard : Only USB Port(The other ports and slave ke

	If Keyboard Controller power is disconnected and reconnected, you must also
Note	disconnect and reconnect the USB either from the Keyboard Controller or
	DVR/NVR side

Keyboard Setup- for RS485

SET USB Off and Dome1: DVR5 in keyboard menu.

SAVE AND EXIT

Recorder Setup

Set serial port of recorder.

KBD Controller Keys in Live mode

Function	Key Label	Descriptions	
Menu		Enter the DVR/NVR MENU screen. Pressing the button also closes the MENU screen. Using the Joystick, you can navigate menu and select by turning the Joystick clockwise. This will also function as Enter.	
Display Mode	E	Change the display mode to different split screen.	
PTZ	PTZ	Control PTZ camera(s) connected channel(show PTZ control mode, PTZ icon change to Please (MACRO ICO PTZ quick menu. Press PTZ button again to exit PTZ mode.	
Enter	SET	Select a highlighted item or completes an entry that you have made. Using the Joystick and turning it clockwise will also function as Enter.	
Full Screen and Input Number	No.+ MAIN	Displays selected channel in full screen. However, when selecting a channel to display in full screen, no channels must be highlighted (yellow border) in the multi-channel mode.	
Digital Zoom	Q	From Live display, select the desired channel and press Zoom button to activate the Zoom Mode. Twist joystick to zoom in and out control.	

		Press again to exit zoom mode.	
Digital Zoom Control		Digital zoom in/out control.	
Freeze	FRE	From Live Display, click the FRE button to activate the Freeze Mode.	
Auto Sequence Mode	SEQ	When in the Live Mode, press the SEQ button will display another full live channel sequentially.	
Alarm	Q	Will turn off the alarm and beep.	
Record	●/ 物	Toggle will start and stop the panic recording operation.	
Search Scan Thumbnail -> Smart Search -> Text -		Open search menu. Press again, menu move to Time -> Event -> Thumbnail -> Smart Search -> Text -> VCA. Click cancel in the recorder menu or press (
		search menu.	
Play	►/II	Go to Playback mode. During playback, pause the video.	
Joystick		- The use of the Joystick will allow you select channels, view in different modes (single or multiple), Zoom in/out, Select/Enter or navigate through menu.	
		- Turn the Joystick counter clockwise for single view mode.	

KBD Controller Keys in PTZ mode

Function	Key Label	Descriptions
PRESET, TOUR, PTRN, SCAN Action	No. + Prst tour Ptrn scan	PRST, TOUR, PTRN, SCAN action
PRESET Setting	No. + CTR	Preset save.
		Zoom in/out control.
Zoom		Turn the Joystick clockwise or counter clockwise for zoom in/out control.
Iris	(@ [O)	Iris Open/Close control, Smart focus(specific camera). Open camera OSD menu(specific camera)
Focus		Focus Near/Far control.
Configuration	MENU	Enters PTZ programming menu.
Control		CTRL + Joystick : In a programming mode (Preset, Pattern, Scan, Privacy) the

l

	CTRL	joystick operates as if in the normal control mode. While pressing and holding down the CTRL key, all movements of the joystick will start recording when in the pattern programming menu	
Cancel	ESC	Cancels current inputs. Exits from currently running functions or menu, error status, etc.	
Enter	ENTER	Completes entering data for the password or title	
PTZ	PTZ	Enter or exit PTZ mode.	
Menu		Open PTZ quick menu.	
Enter	SET L	Enter button under quick menu or pop-up menu.	
Channel Change	No. + MAIN	Channel change.	
Joystick		PTZ control or menu navigation control.
